PRECISION-CRAFTED ARCHITECTURAL MOULDINGS

PRINCETON
FOREST PRODUCTS

Refinement redefined

DESIGN

- > Exclusive designs completely developed by Princeton for highly personalized styles
- > Six distinctive moulding collections that complement each other for a custom look
- > Unequaled fit, flawless finishes and superior consistency

TURNKEY

- > High-performance treatment process applied before a neutral-colored primer
- > Primed, buffed and ready to paint

SAFETY

- > Wood without the worry: safe to be used indoors at home
- > Zero added chemicals, preservatives, pesticides, or active ingredients
- > No off-gassing solvents

LOCALLY MADE

- > 100% made in North America
- > Minimal transportation footprint
- > Mature and stable: no offshore juvenile wood

PRIMECLASSIC

Premium mouldings that add durability, distinction, and sophistication to any interior design project

Princeton Forest Products develops the only interior moulding brand that offers exclusive and refined designs: PRIMECLASSIC. With a wide range of choices, custom looks can be achieved without an over-the-top budget.

No matter what decor they are showcased in, people will appreciate their crisp, distinct profiles shaped to display the warmth, beauty and genuine character of wood.

Made from high-quality Eastern White Pine, a native wood species, PRIMECLASSIC mouldings are indeed in a class by themselves.
